Summary

B.Tech AIML student with hands-on experience building cloud-native and serverless applications on AWS using Python. Comfortable across the stack — from containerized backends and infrastructure automation to computer vision and ML-driven features. Currently deepening AWS + Python skills through an intensive, project-heavy certificate program.

Technical Skills

Languages: Python, Java
Cloud (AWS): Lambda, S3, EC2, DynamoDB, API Gateway, ECS Fargate, Rekognition, Polly, RDS, CloudWatch, SNS/SQS, EventBridge, IAM, Boto3, CloudFront
Frameworks: Flask, FastAPI, TensorFlow.js
DevOps & Tools: Docker, GitHub Actions (CI/CD), Nginx, Git
Databases: DynamoDB, MySQL, PostgreSQL, SQLite

Projects

Smart City Complaint Registration System | *EC2, Lambda, Rekognition, RDS, DynamoDB, EventBridge*

- Architected a full-stack, event-driven civic complaint system combining relational (RDS PostgreSQL) and NoSQL (DynamoDB) storage with image-based complaint verification powered by Rekognition.
- Used EventBridge to orchestrate asynchronous workflows across Lambda functions, decoupling complaint intake, verification, and status updates.
- Deployed a frontend on EC2 backed by an API Gateway + Lambda serverless layer for complaint submission and tracking.

CyberGuard — Malicious URL Detector | *Random Forest, FastAPI, Chrome/Edge Extension*

- Evolved a Streamlit prototype into a Chrome/Edge browser extension, delivering real-time malicious URL predictions to users as they browse.
- Trained and served a Random Forest classification model through a FastAPI backend, balancing inference speed with detection accuracy.

Experience & Leadership

Fetch.ai Club Jan 2024 – Present
Head of Design & Media Team

- Promoted club events on social media by creating engaging posters, reels, and visual content.

Certifications

- R3Sys Java Development Training – 2025
- Certificate Course in AWS with Python — Symbiosis Skill University, Pune *(In Progress)*

Education

Symbiosis School of CSIT (SCSIT) Pune, Maharashtra
B.Tech in Artificial Intelligence & Machine Learning *Expected 2027*

2023 – Present	B.Tech (AIML) at **R.C. Patel Institute of Technology**	(GPA: 7.2)
2022 – 2023	Jr. College at **Pratap College**	(71%)
2021	Class 10th SSC Board	(81%)

Currently pursuing a Certificate Course in AWS with Python (in progress): serverless architecture, containerization, and cloud-native development.
